

Kayenta Mine

QUICK FACTS

MINE TYPE
Surface

LOCATION
Northeast Arizona

COAL TYPE
Thermal

MINING METHOD
Dragline, truck/shovel

DID YOU KNOW?

The Kayenta Mine, located on reservation lands in Northeast Arizona, operates through lease agreements with the Navajo Nation and Hopi Tribe to supply coal to the Navajo Generating Station in Page, Ariz.

Ninety-nine percent of Kayenta's workforce is Native American. Wages and benefits for a typical miner are more than 10 times higher than the Navajo Nation per capita income.

Peabody's Arizona operations have earned numerous awards for industry-leading efforts to reclaim mined lands in a manner that also preserves cultural ways.
