

## LOCATIONS

## MINES

- El Segundo Mine
- Kayenta Mine
- Lee Ranch Mine
- Twentymile Mine

## DID YOU KNOW?

The Kayenta Mine, located on reservation lands in Northeast Arizona, operates through lease agreements with the Navajo Nation and Hopi Tribe to supply coal to the Navajo Generating Station in Page, Ariz.

Ninety-nine percent of Kayenta's workforce is Native American. Wages and benefits for a typical miner are more than 10 times higher than the Navajo Nation per capita income.

Peabody has developed a unique cultural plant restoration program to reclaim dozens of plants of tribal significance, including juniper, piñon and sage that are used by local residents for religious ceremonies, medicinal purposes and to make dyes for wool.
